## Solar Fan

picture	Model	parameter	function	price(USD)	carton size	QTY/carton	GW/kg	note
	HS-T8	Work rate: 5w Solar panel: 6w polysilicon A panel 6V Battery capacity: 18650ternary lithium battery 5200mah Charger: 2A data cable Function mode: LED lighting Fan size: 12 inches, 37cm high, 42cm wide Fan size: 195mm*195mm*105mm Solar panel size: 235*205mm Product color: grey	Gear position: 3 gears Charging time: 2-3H Use time: 4-12 hours		240*135*215cm	1	1.12	Solar charging Can be charged by AC mains
	HS-T8	Work rate: 5.5w Solar panel: 6.5w polysilicon A panel 6V Battery capacity: 18650ternary lithium battery 5200mah Charger: 2A data cable Function mode: USB charging port Fan size: 202mm*202mm*92mm Solar panel size: 235*205mm Product color: white	Gear position: 3 gears Charging time: 3-5H Use time: 4-12 hours		238*228*130cm	1	1.6	Solar charging Can be charged by AC mains
	HS-118	Work rate: 15w Solar panel: 12w polysilicon A panel 9V Battery capacity: ternary lithium battery 12000mah Charger: 1.5A adapter charger Function mode: USB charging port Fan size: 12 inches, 37cm high, 42cm wide Solar panel size: 350*290mm Product color: black	Gear position: 3 gears Charging time: 3-5H Use time: 3 gears 9 hours, 1 gear 10-11 hours		43*24*38cm	1	3.5	Solar charging Can be charged by AC mains
	HS-128	Work rate: 15w Solar panel: 12w polysilicon A panel 9V Battery capacity: ternary lithium battery 12000mah Charger: 1.5A adapter charger Function mode: USB charging port Fan size: 12 inches, height 58cm, width 34.5cm Solar panel size: 350*290mm Product color: white	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears for 8 hours, 1 gear for about 10 hours		42*21.5*35cm	1	3.5	Solar charging Can be charged by AC mains
	HS-138	Work rate: 15w Solar panel: 12w polysilicon A panel 9V Battery capacity: ternary lithium battery 12000mah Charger: 1.5A adapter charger Function mode: USB charging port Fan size: 16 inches, height 60cm, width 43cm Solar panel size: 350*290mm Product color: white	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears 7 hours, 1 gear 9 hours		43*22*43.5cm	1	3.7	Solar charging Can be charged by AC mains
	HS-168	Work rate: 15w Solar panel: 12w polysilicon A panel 9V Battery capacity: ternary lithium battery 12000mah Charger: 1.5A adapter charger Function mode: USB charging port Fan size: 16 inches, 120cm high, 45cm wide Solar panel size: 350*290mm Product color: white	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears 7 hours, 1 gear 9 hours		47*19*43.5cm	1	4.8	Solar charging Can be charged by AC mains
	HS-188	Work rate: 25w Solar panel: 20w polysilicon A panel 9V Battery capacity: ternary lithium battery 18000mah Charger: 1.5A adapter charger Working mode: multi-function button Function mode: USB interface, night light illumination Fan size: 16 inches, 120cm high, 45cm wide Solar panel size: 400*350mm Product color: white, black	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears 10 hours, 1 gear 12 hours		49*22*43.5cm	1	5.5	Solar charging Can be charged by AC mains
	HS-198	Work rate: 25w Solar panel: 20w polysilicon A panel 9V Battery capacity: ternary lithium battery 18000mah Charger: 1.5A adapter charger Working mode: multi-function button Function mode: USB interface, night light illumination Fan size: 16 inches, 120cm high, 45cm wide Solar panel size: 400*350mm Product color: white	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears 10 hours, 1 gear 12 hours		49*22*43.5cm	1	5.6	Solar charging Can be charged by AC mains
	HS-198F	Work rate: 25w Solar panel: 20w polysilicon A panel 9V Battery capacity: ternary lithium battery 18000mah Charger: 1.5A adapter charger Working mode: multi-function button Function mode: remote control or button control, charging indicator, gear display, 5v bulb output, night light with weak or strong light, USB charging port Fan size: 16 inches, 120cm high, 45cm wide Solar panel size: 400*350mm	Gear position: 3 gears Charging time: 4-6H Use time: 3 gears 10 hours, 1 gear 12 hours		49*22*43.5cm	1	5.6	Solar charging Can be charged by AC mains
	HS-V218	Work rate: 25w Solar panel: 20w polysilicon A panel 9V Battery capacity: ternary lithium battery 18000mah Charger: 2A adapter charger Working mode: multi-function button Function mode: remote controller or key control, charging indicator, gear display, nightlight weak light or strong light, USB charging interface, Mosquito repellent lamp Fan size: 16 inches, 120cm high, 45cm wide Solar panel size: 400*350mm	Gear position: 4 gears Charging time: 4-6H Use time: 4 gears 10 hours, 1 gear 12 hours		49*22*43cm	1	6	Solar charging Can be charged by AC mains
